

Sameer Maharana

+91 7387979150 | Sameermaharana@gmail.com | [Portfolio](#) | [Github](#) | [LinkedIn](#)

SKILLS

Programming Languages: C++, JavaScript

Web Development Languages: Html, Css, Tailwind css, React.js, Node.js, Redux

Tools: Vs code, GitHub, Figma, Framer motion, ChatGPT

EXPERIENCE

Freelance projects

Mar 2023 - Feb 2025

Tech Stack: Html, Css, Javascript, Bootstrap, Php, Mysql, Word, Github, Vscode, Chatgpt

- **Worked as a frontend developer for 2 years**, creating user-friendly websites using **HTML, CSS, JavaScript, Bootstrap, PHP, and MySQL**.
- **Handled over 20+ student projects** from different states across India, mainly helping final-year students with their academic websites.
- **Designed and modified the entire front-end interface**, while my partner managed the backend and database parts.
- **Also created professional project reports in MS Word**, using ChatGPT to write clear and well-structured content.

PROJECTS

Apple Clone | [Live link](#)

- Developed a realistic iPhone landing page using React and Tailwind CSS, focused on modern UI/UX and clean, responsive design.
- Integrated advanced 3D scrolling animations and section transitions, creating an interactive and immersive user experience as users scroll through features.
- Showcased iPhone in a high-fidelity, visually appealing layout, optimized for all screen sizes and deployed on Vercel for smooth, fast performance.

Expense Tracker | [Live link](#)

- Built a responsive Expense Tracker using HTML, CSS, and JavaScript, allowing users to add, delete, and manage their daily expenses in real time.
- Implemented dynamic DOM manipulation to update income, expense, and balance calculations instantly as users interact with the app.
- Designed a clean, user-friendly interface with organized layout and intuitive features, making personal finance tracking simple and effective.

Recipe Website | [Live link](#)

- Developed a dynamic recipe search website using HTML, CSS, and JavaScript that fetches real-time recipe data from an external API based on user input.
- Integrated ingredient lists and cooking instructions to provide detailed and easy-to-follow results for each searched recipe.
- Designed a responsive and interactive UI for smooth user experience across all devices, enhancing usability with a clean and organized layout.

EDUCATION

Graduation

BCA - 2024
